

Northstar

Front Mount Single Engine Blower

This single engine blower is expertly engineered to provide high capacity snow blowing on an exceptionally maneuverable chassis. Specifically designed for truck loading and precise snow placement with an optional spot casting loading chute, the Northstar has up to 3,800 tons per hour blower capacity and up to 100-feet casting distance.

Features & Benefits

- 95 in wheel base for tight turning circles and excellent maneuverability.
- 500 HP, electronic turbocharged diesel engine, T4F EPA emission certified
- Tapered leaf spring suspension for smoother ride and increased driver control
- Snow blower capacity up to 3,800 tons per hour
- Ground drive is variable speed hydrostatic, 2 speed transfer case to axles
- 2-person air suspension cab with air ride seats

	Northstar
Chassis	
Engine	496 HP electronic turbocharged diesel chassis engine, T4F EPA / Stage 5 emission certified with ether start and heated fuel water separator
Transmission	Allison RDS 4000, 6 speed
Drive	Electronically controlled 100 cc radial piston variable displacement hydrostatic pump
Front Axle	MB 29,000 lb front drive/steer axle with limited slip differential
Rear Axle	Dana 23,000 lb rear drive axle with limited slip differential
Brakes	ABS
Fuel Tank	100 gal/ up to 12 hrs of operation
Wheel Base	95 in
Tires	445/65R22.5 LR L traction tread front and rear tires
