

Extended Warranty Program Airport Maintenance

MB offers this exclusive, aftermarket extended service contract program to extend the life of MB airport runway clearing equipment, and help to safeguard against unforeseen, costly repairs.

Program Features:

- Two pricing models, dependent on time of purchase
- 12- and 24-month options
- Priority parts and service support

Program Benefits:

- Extends warranty coverage beyond the standard 1-year warranty on new equipment.
- Ensures runway clearing equipment operates at maximum potential throughout life of extended warranty.
- Enables more accurate operational expense budgeting.

Best-in-Industry Field Service:

- Team of full-time field service technicians employed by MB.
- Service and repairs completed at customer site.
- Factory-trained technicians specialize in repair of MB airport snow and ice control equipment.

Pricing Options:

Option 1:

Service contract purchased BEFORE start of standard/base warranty, just prior to equipment delivery.

- 12-month contract: 3% of purchase price
- 24-month contract: 7% of purchase price

Option 2:

Service contract purchased AFTER start of standard/base warranty, within 12 months of equipment delivery.

- 12-month contract: 4% of purchase price
- 24-month contract: 9% of purchase price

All extended warranties come with customer commitment to have MB technicians perform Annual Wet Service Audit.

All extended warranty repairs will incur a \$1,000 deductible.
