MSV ATTACHMENT

Snow Blower Specification

- ◆Blower is 50" wide with a 43" high intake height.
- ◆Two stage design with a 32" diameter auger driven by dual hydraulic motors and a PTO driven 29" diameter fan.
- ◆Auger and fan are driven directly, no gearboxes employed.
- ◆Blower capacity is 700 tons per hour.
- ◆Overall blower height with chute deflector raised is 92" and 80" with deflector lowered.
- ◆Three point Cat II hitch.
- ◆Reversible, replaceable 4" by ½" cutting edge.
- ◆Hydraulically controlled discharge chute rotation of 195 degrees.
- ◆Chute deflector is hydraulically controlled with a double acting cylinder.
- ◆Configured with 5 inch wide masticated rubber deflector strip on intake housing.
- ◆All blower controls integrated into vehicle joystick
- ◆Adjustable storage stand allows blower to be stored in convenient position for easy attachment and removal.
- ◆Hydraulic connections made by quick disconnects
