

Hydraulic Angling Broom

SPECIFICATIONS

- ◆ Sizes 60", 72" and, 96" brooms operate angled left, angled right, and straight positions. Custom sizes available.
- ◆ Three point Cat II hitch manufactured using box frame construction with tubular steel brush frame.
- ◆ Hydraulic angle change maximum 30 degrees left or right.
- ◆ Clearing width when fully angled for various sizes is as follows:
 - ☐ 60" broom clears 52" when angled 30 degrees
 - ☐ 72" broom clears 62" when angled 30 degrees
 - ☐ 96" broom clears 83" when angled 30 degrees
- ◆ Broom powered by dual 18 cubic inch, heavy duty, high torque hydraulic motors.
- ◆ Hydraulic motors are incorporated into broom core to minimize overall width.
- ◆ Broom diameter is 32 inches and available with poly, wire, or poly-wire combination bristles.
- ◆ Configured with 12 inch wide masticated rubber deflector strip.
- ◆ Broom controls integrated into vehicle joystick
- ◆ Four adjustable storage stands allow broom to be stored in convenient position for easy attachment and removal.
- ◆ Hydraulic connections made by quick disconnects.
- ◆ Four point, self centering swing system maintains the center of the swept path on the center of the vehicle.
- ◆ Brush hood covers 155 degrees and is formed from 16 gauge hot rolled steel.
- ◆ Three point mount provides up to 13 degrees of oscillation, allowing broom to accurately follow uneven surfaces.
- ◆ Broom is finished with an epoxy primer and polyurethane top coat. Color is MB yellow.
