

Kamber Spray Systems

Model 84 Paint Gun for Walk Behind Striping Unit

The Kamber Model 84 Spray Gun is a high-quality, pneumatic paint gun, manufactured under the strictest control of materials and workmanship, unequaled by any other manufacturer. The gun is designed for road marking application of all standard traffic paints, including premix. The paint line delineation on the road is excellent and, with most paint, equals that of an airless system. The Kamber Model 84 can be easily converted from a bleeder to a non-bleeder gun.

FEATURES

- ◆ Separate air system with automatic valve.
- ◆ Separate pneumatic piston system.
- ◆ Separate material nozzle.
- ◆ Needle is not exposed to road dirt and paint spray.
- ◆ The precise closure of the material nozzle guarantees a clean and positive closing, even with paint having silica or other coarse filling material.
- ◆ 2-Part precision nozzle system: basal air nozzle for air consumption; exterior nozzle for spraying with.

SPECIFICATIONS

- ◆ Material Nozzle: 3.0 mm diameter opening
- ◆ Paint Supply: By means of pressurized paint tanks or a low pressure pump
- ◆ Effective Air Consumption at 50 PSI for Material Nozzle: 3.0mm dia = 3 to 6 CFM
- ◆ Air Pressure: Operating Air - 40 to 80 PSI
Atomizing Air - 20 to 70 PSI
