## H2000 Loader Mounted Snow Blower

- Multiple loader / hitch configurations available to match most loaders. Retrofittable to existing loaders
  - Please consider separate bid or proposal than loader itself
  - Also available in truck chassis configurations. Consult M-B for compatibility
- Sized for 4.0 cubic yard loaders and larger
- Capacity up to 2000 tons per hour
- Up to 120 feet cast distance depending on conditions
- Hydrostatic drive for ribbon and impeller: infinitely variable speed pumps and fixed displacement motors
- Caterpillar C7, 300HP, electronic turbocharged diesel engine, 7.2 liter. Meets Tier 3, Stage IIIA emission standards
- Cutting height of 58 inches, cutting width of 113 inches
- 38" diameter ribbon
- 46" diameter impeller with replaceable blades
- Shear bolt and hydraulic relief to protect impeller
- Independently reversible ribbon and impeller to free obstructions and clogs
- Rotating impeller housing and discharge chute for adjustable cast direction
  - 140 degree counterclockwise rotation from flat cast right
- Integrated carbide skid shoes
- 100 gallon fuel tank for 8-10 hours of operation
- Microprocessor CAN (Controller Area Network) serial bus system based controls
  - Flexible and versatile with ability to Monitor, Diagnose and Control (MDC)
  - User friendly MDC operator controls in cab of loader
  - Color liquid crystal display screen.
  - Pedestal mount
- Optional loading chute with directional flipper control for dump truck loading or spot casting snow
