EMPLOYMENT

Production Associates – Assemblers and Fabricators

We are currently searching for several individuals to join our Production Team. We currently have needs in our Assembly and Fabrication Departments. These challenging positions, located at our Muncy, Pennsylvania location, are responsible for producing various types of pavement marking vehicles and equipment. Key duties include:

- Reading and interpreting blueprints, wiring diagrams, work orders and schematic drawings
- Producing products according to established specifications, schedules and quality standards using a wide variety of hand and power tools and inspection equipment
- Inspecting and testing parts, accessories and finished products

The ideal candidate will have:

- Strong mechanical aptitude – experience repairing machinery or vehicles a plus
- Previous related manufacturing experience
- Ability to read and interpret blueprints
- Ability to use various hand tools, power tools and measuring devices
- Physical ability to work in awkward positions for extended periods of time and regularly lift up to 50 lbs.
