## Job Posting

### Production Supervisor

**Summary:** Supervises and coordinates activities of workers engaged in operating variety of machines to manufacture parts or products by performing the following duties.

**Essential Duties and Responsibilities** include the following. Other duties may be assigned.

Analyzes work orders to estimate worker hours and create machining schedules that meet both internal and external needs.

Computes amounts of stock and supplies required for operations, based on production schedules, and requisitions materials from storage area.

Interprets specifications, blueprints, and job orders to workers, and assigns duties.

Plans flow of materials through department and develops physical layout of machines according to work orders.

Interfaces with others in the organization to ensure customer deadlines are met.

Inspects and measures parts and products to verify conformance to specifications.

Directs workers in adjusting machines and equipment to repair products which fail to meet standards.

Establishes or adjusts work procedures to meet production schedules.

Develops, recommends, and implements measures to improve production methods, equipment performance, and quality of product.

Creates and delivers employee training programs covering topics such as operating procedures, quality and safety.

Suggests changes in working conditions and use of equipment to increase efficiency of shop, department, or work crew.

Analyzes and resolves work problems, or assists workers in solving work problems.

Maintains time and production records.

Develops capital equipment justifications for machine tools and process technology to improve quality, cost, and cycle times.
