

Aebi Schmidt North America to expand M-B Companies, Inc. Chilton Facility

Chilton, August 21, 2020 – **Aebi Schmidt North America announces the expansion of their M-B Companies, Inc. manufacturing facility and offices in Chilton, Wisconsin.**

The ground breaking will mark the historic expansion that will increase capacity by 70,000 square feet for existing product lines, as well as, additional Aebi Schmidt products and office facilities.

Advanced manufacturing capabilities will be enhanced and include line of sight improvements for even safer operations. These include metal fabrication, finish coating and a heated material storage facility.

The modern facility will incorporate several employee amenities including a cafeteria, locker and training rooms. The updated offices will be a welcoming environment for all who enter with a modern office atmosphere.

This new expansion will be the home of M-B Airport Maintenance Products and North American corporate functions. It is an investment in the future and a sign to further strengthen and grow the North American business.

Due to current conditions related to COVID 19, there will be a modest ground breaking event on August 21, 2020. The company and its partners look forward to planning a “state of the art” celebration as soon as the general conditions allow to do so.

M-B Companies, Inc. was acquired by the Aebi Schmidt Group in 2018. The Aebi Schmidt Group is a global leader of smart systems and services for the treatment of mission critical infrastructural and agricultural areas. M-B's products contribute to the Aebi Schmidt's strategy with an extensive range of products comprised of fabricated vehicles, as well as, innovative attachable and demountable devices.

M-B Companies, Inc., is an Aebi Schmidt Group subsidiary with four divisions: Airport Maintenance Products, Pavement Marking & Striping, Attachments and Brushes and was founded in 1907.
