Audit

Pavement Marking Equipment

Find out about the cost of repair(s)/upgrade(s) of your system making the old new with the Audit program. A versatile tool which gives the customer insight into what it would cost to complete repair(s)/upgrade(s) needed to bring your equipment back to operational condition.

Highlights

- The Audit program can also be adjusted to the customer's needs. Once the Audit is completed and the parts and labor cost are calculated the customer can determine how to complete the repair(s)/upgrade(s):
 - Use the findings of the Audit and complete the repair(s)/upgrade(s) themselves.
 - Use the findings of the Audit and have MB order your parts, ship them to you and you complete the repair(s)/upgrade(s).
 - Use the findings of the Audit, have MB order and install parts as well as repair(s)/upgrade(s) as requested.

Cost

- An Audit cost \$1,500 a day for each piece of equipment plus travel expenses.
- If you choose to have MB order the parts and ship them to you, that cost will be sent to you in accordance with the findings of the Audit.
- If you have MB complete the findings of the Audit, that cost will be sent to you in accordance with the findings of the Audit.
- If any additional repairs arise during the annual maintenance process the customer will be sent a quote. No work will be done on the quoted items until the customer approves.

Whether you choose to perform all, some or none of the work yourself, the Audit will give you a total understand on the cost to bring your equipment up to operational condition as well as assisting you in determining the value of your equipment.
