

M-B Heavy Duty All-Wheel Drive Kit

4 x 4 with Host Chassis and optional reversible plow and dump body

6 x 6 with Host Chassis and optional plow and pre-wet spreader body

- M-B Conventional chassis upgrade kit to full time all-wheel drive 4X4 or 6X6
- Uses the same axle and transfer case components as custom M-B chassis
- Consult with M-B Sales for chassis options and specifications
- Creates a conventional truck suitable for airport plows, front brooms, tow brooms, underbody scrapers, dump bodies, spreaders, de-icers and other attachments as desired
- 70 ft wall to wall turning diameter with 22-foot plow and 4WS (4 x 4) Reference only, wheelbase dependent
- 75 ft wall to wall turning diameter with 22-foot plow and 6WS (6 x 6) Reference only, wheelbase dependent
- M-B 29,000-pound front driving axle with limited slip differential
- M-B Torque Flow single speed transfer case featuring the Eaton Tru-Trac™ differential provides low speed torque plus speeds up to 45 mph
 - Automatically and constantly proportions torque delivery between front and rear axles
 - Uses helical gears for positive and smooth torque transmission reducing maintenance requirements.
- Torque bias can range from 25% front / 75% rear to 75% front / 25% rear in infinite steps as needed
- Pricing does not include host chassis
- Pricing includes mandatory assembly at M-B Companies facility in Chilton, WI.

All Wheel Drive Kit Options

- M-B 29K front / 27K rear steering axle with operator controlled locking differential (4 x 4)
- M-B 29K front / 46K non steering rear tandem with operator controlled locking differentials (6 x 6)
- M-B 29K front / 46K rear steering tandem with operator controlled locking differentials (6 x 6)
